THE CHIEF PROBLEM SOLVERS

Product Development

VICILLION IS A COMPANY BUILT BY PASSIONATE PROBLEM SOLVERS WHO ENJOY WORKING WITH LIKE MINDED PEOPLE

+ Concept Creation

Did you know that only 1 in 10 new products is successful? Our concept creation process is a detailed process based on research and strategic planning, so your product can be in that 1%.
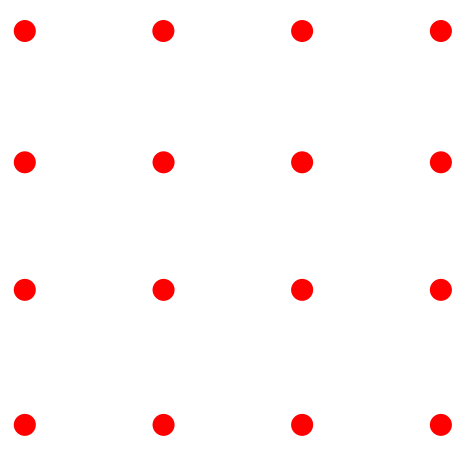

+ Prototyping & Manufacturing

Digital or Hardware, this is when our team brings your concept to life, ready for your customers.

+ Innovation Services

We take a preexisting product and transform it into an innovative and competitive product, ready to take on the market.
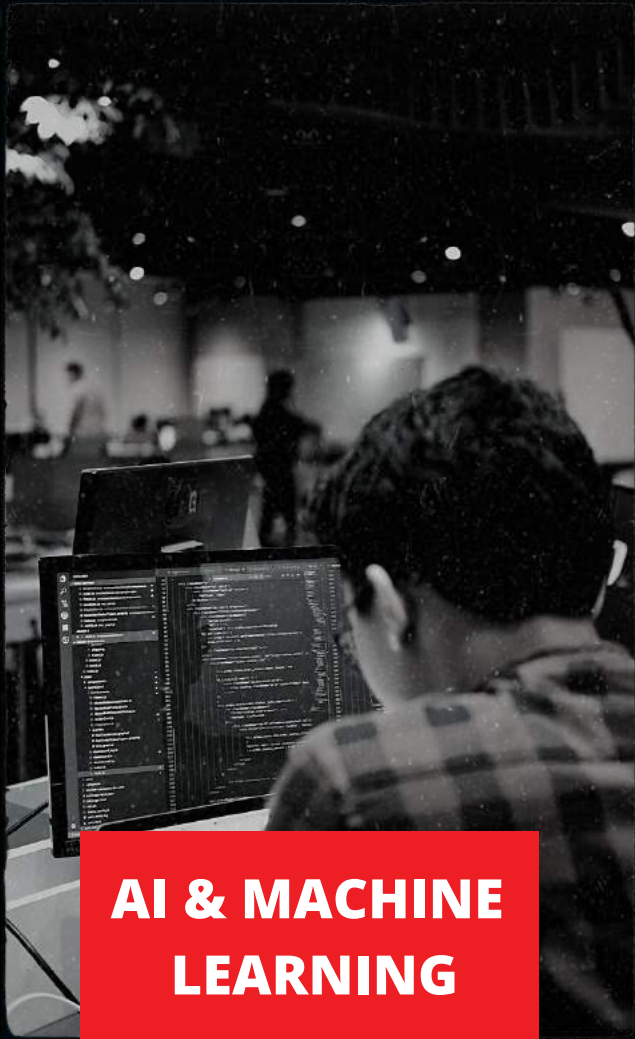

OUR LABS

AT VICILLION WE HAVE 6 LABS THAT ARE DEDICATED TO TECHNOLOGY RESEARCH & DEVELOPMENT IN THE FOLLOWING INDUSTRIES:

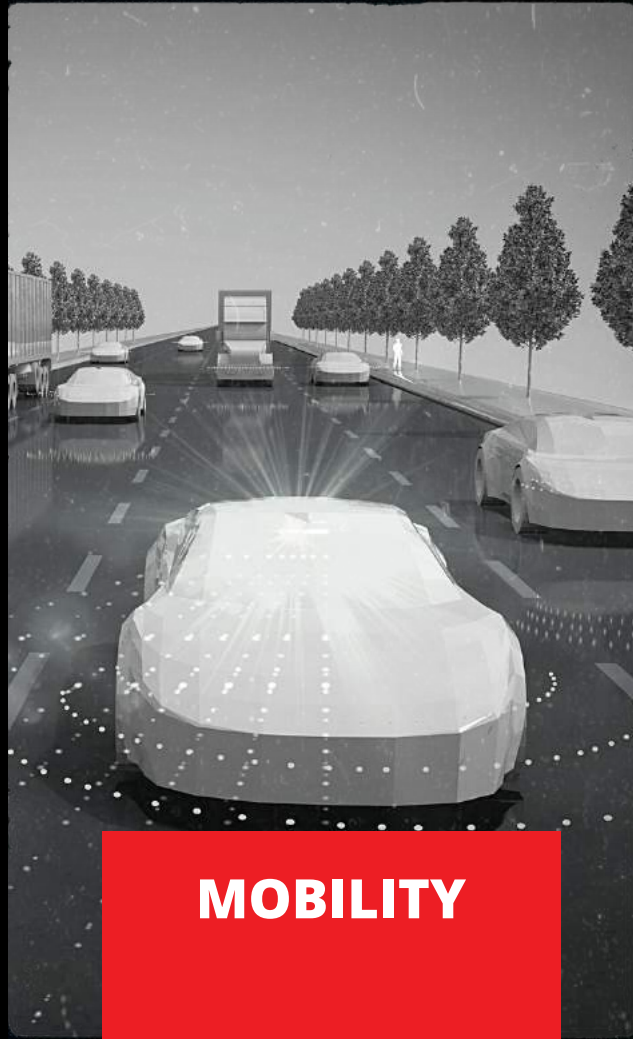

ROBOTICS
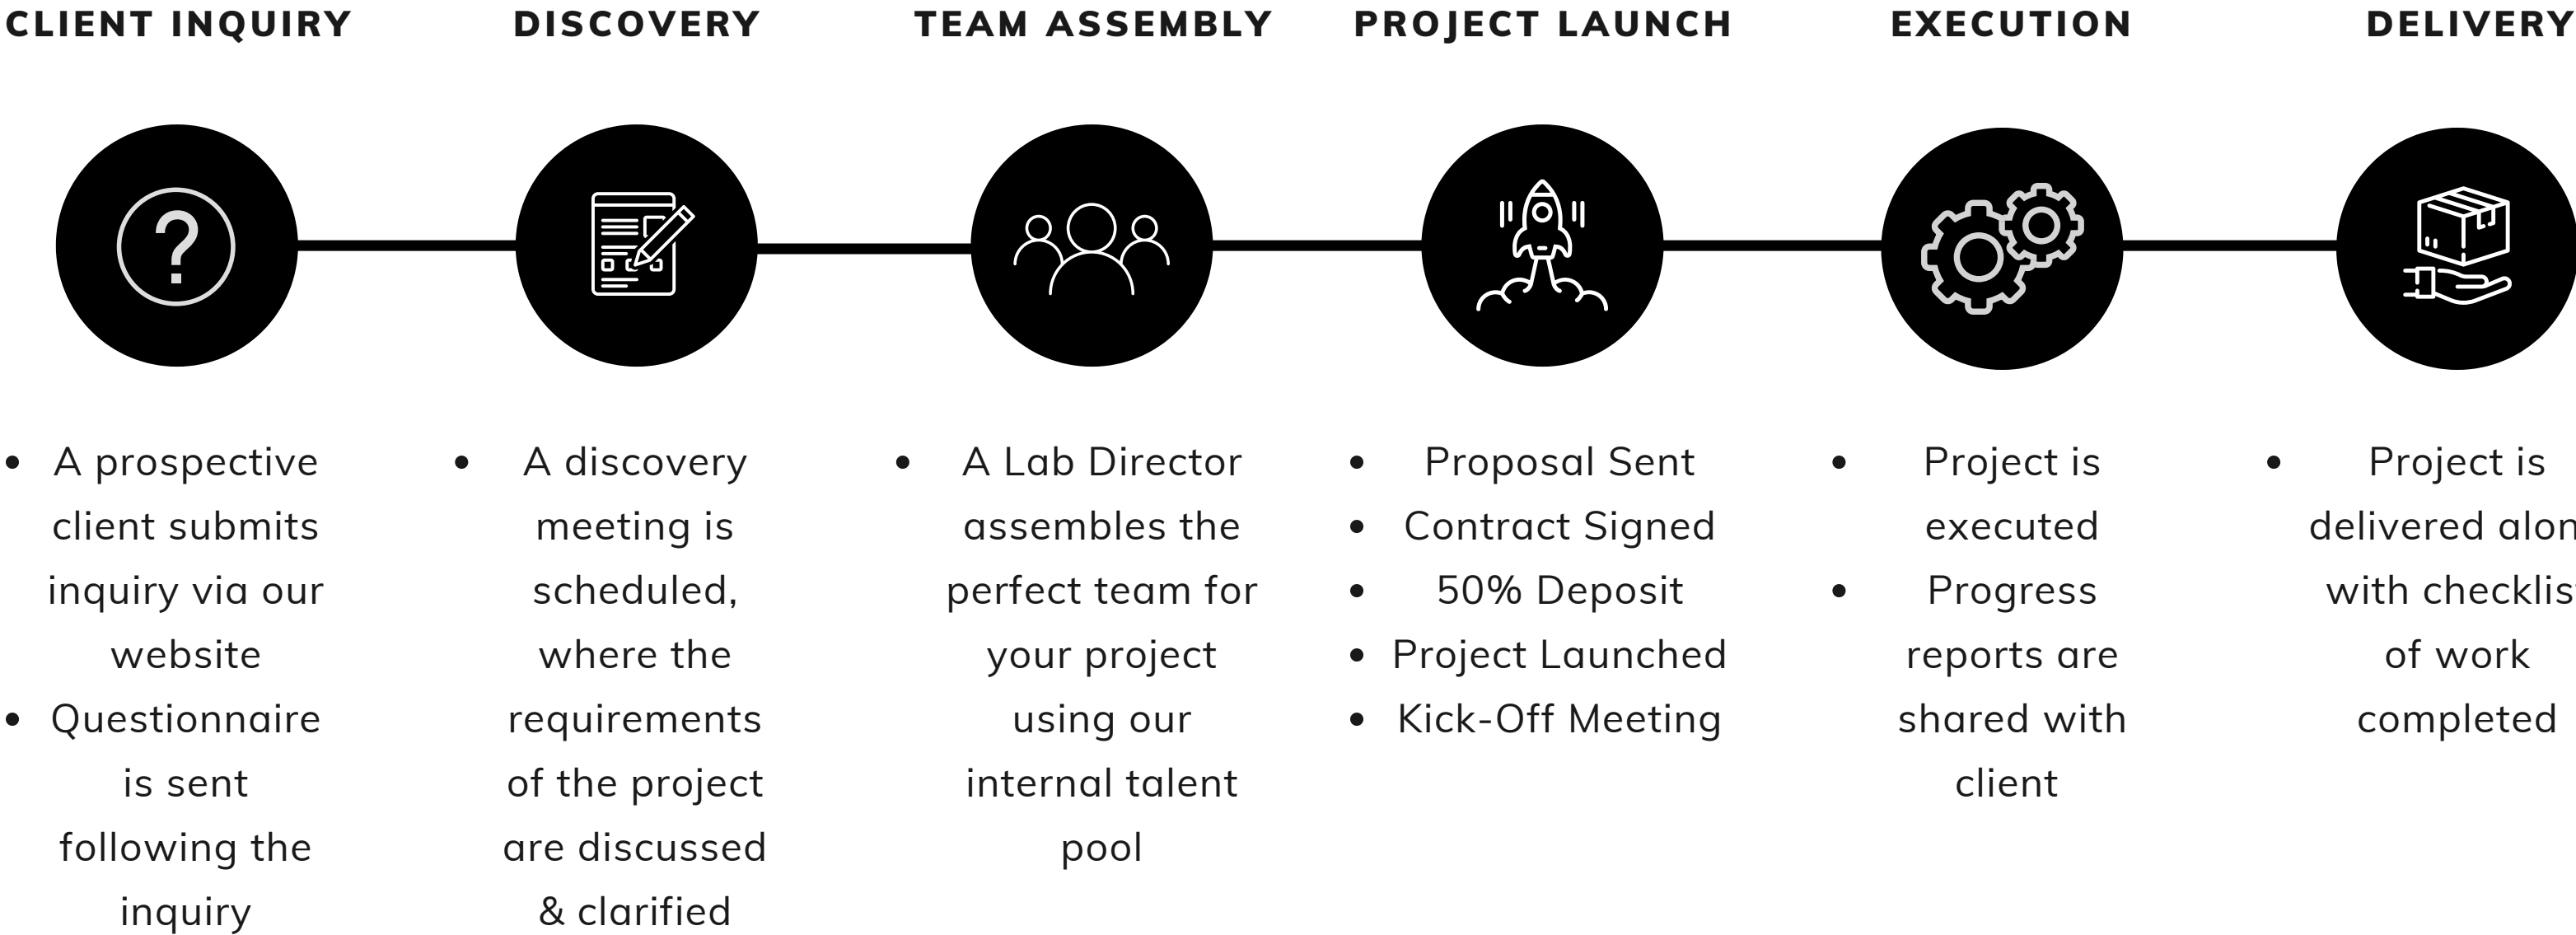

**AI & MACHINE LEARNING**
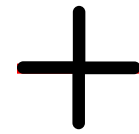

AEROSPACE

MOBILITY

INTERNET OF THINGS

GOVERNMENT CONTRACTING

PRODUCT COMPLEXITY

How complex is the problem we are solving for you? The more complex the more resources we have to allocate to your project, therefore driving up cost.

PRICING

## HOW DO WE DETERMINE THE COST FOR YOUR PROJECT?

DEVELOPMENT TIMELINE

How soon are you looking to have this problem solved? The product development process usually takes between 6-12 months, depending on the kind of product.
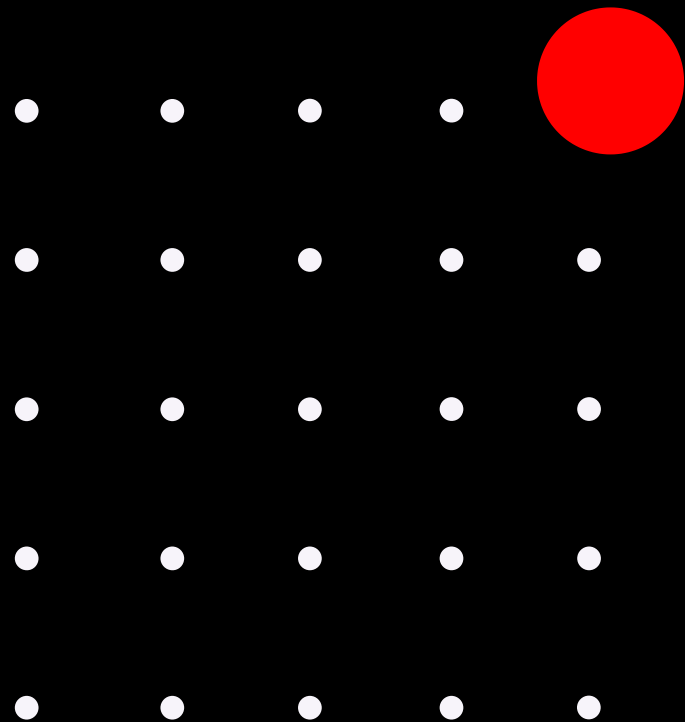

PRODUCT SCALE

How many people do you envision using your product? Depending on what the answer is, the cost can be increased or decreased, because we want to make sure we build you a sustainable and effective product.
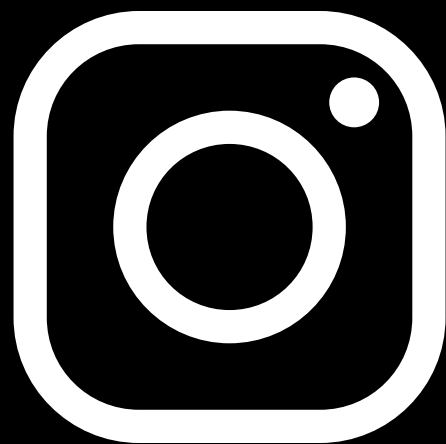

BORDERLESS SOLUTIONS

As a borderless problem solving organization, we take pride in our diverse background of Agents, who provide unique perspectives in our problem solving process. This, therefore, permits us to take on customers from all over the globe!
